### Katarina and the Whale

Katarina is swimming under the stormy sky and a whale is chasing her. Though Katarina doesn't know, the whale is very angry because the whale wants his fish back. However Katarina is happy because she caught a fish on her own. Then, she rides on the whale. The whale decides to play a trick on her.

The whale splashes water on Katarina. Katarina is wet and cold. The whale is laughing at her. Luckily, when he lands in the water, two seagulls catch her and fly her back. Katarina is happy.
