## Content :

**One day, five children were playing a new computer game called 'Secret of the Sands'. Suddenly, a magic key came up and brought them to an adventure. They went into a desert and got a map so they started to find the treasure. It was an exciting adventure. Finally, they got the treasure chest, which was full of beautiful jewels.**

## Reason for recommendation :

**I like this book so much because the authors used a lot of details to describe the adventure. It seemed that I was having the adventure with them.**
